Roadways VS Railways

Roadways

Railways

Interstate

Main Line

- a long stretch of high-traffic track usually used for trains to travel long distances

Used for long-distance travel

Main Road

Industrial Lead

- track leading to a group of rail-served buildings

Used for short-distance travel

Side Street

Customer Track

- track owned by the customer leading to their facility

Used to approach final destination

Driveway

Customer Facility

- the product's final destination

Final destination

Track Record
