Mexico Direct

Rail service north and south of the border

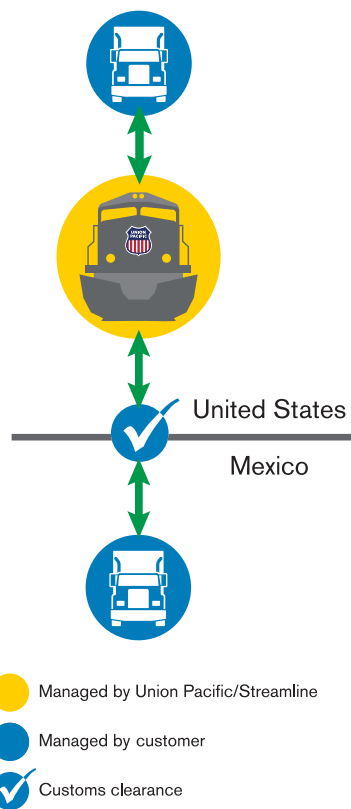

Mexico Direct is an all-rail, seamless service that bypasses congested border crossings. Southbound shipments do not stop at the border for customs clearance. Instead, they travel in-bond, clearing customs at interior Mexico origins and destinations.

Border Direct

Rail service north of the border, truck service south of the border

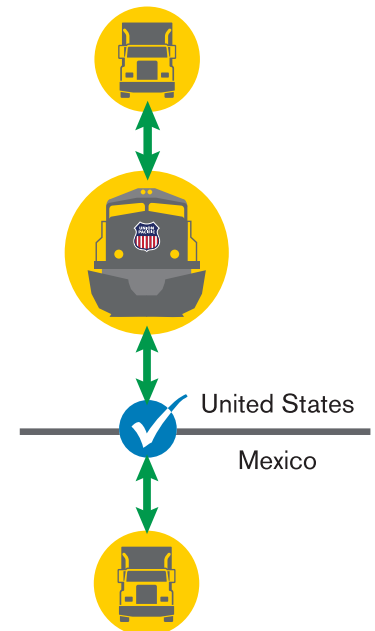

Border Direct combines rail service north of the border with IMC or motor carrier-managed transportation south of the border, allowing you the flexibility for transloading, consolidating and warehousing.

Streamline Passport

Door-to-door shipments managed entirely by Streamline

Let us handle it all with Streamline Passport, seamless, door-to-door and door-to-ramp service to and from Mexico. Your shipment is managed entirely by Streamline, a wholly-owned subsidiary of Union Pacific. We coordinate and track your shipment every step of the way, from pick-up to final delivery.
