

## **Announcement Declaring Southern California Market No Longer Constrained**

Dear Intermodal Customer,

Due to expected availability of container capacity, UP will no longer bill customers weekly Volume Surcharges for shipment volume in excess of the Surge Volume Allowance for each shipper in Southern California. This will be effective the week beginning November 4, 2012.

Please don't hesitate to contact your Intermodal Sales Representative if you have any questions. Thank you for your business and we look forward to supporting your ongoing transportation needs.
