

## **Passport Announcement**

### **Streamline Expands Existing Service in Mexico**

#### **Introducing Streamline Passport**

Streamline is pleased to announce that effective July 15<sup>th</sup> Union Pacific's Passport program will expand to a comprehensive intermodal product managed by Streamline, called Streamline Passport. The Streamline Passport program will enhance current Passport service by providing a door-to-door intermodal solution for customers throughout Mexico, backed by the industry's largest intermodal container fleet and Streamline's extensive drayage network.

As part of this enhanced program, Streamline will provide transactional rates instantly via the QuoteLine web tool, as well as annualized rate offers and committed capacity for repetitive Mexico freight. Technology features include access to Streamline's Shipment Management tool, which provides full visibility & tracking capabilities throughout the U.S. and Mexico, daily snapshot capacity maps, and a D2D intermodal savings calculator.

Additionally, the Streamline Passport program offers Streamline's 24/7 customer service available today, with the added security of dedicated staff on-site in Laredo to monitor your shipments. We're here to streamline your Mexico transportation, and invite you to try the enhanced Streamline Passport product today.

Please note that all existing Passport quotes will expire on July 15, 2013. Existing Passport customers will receive new Streamline quotes from their sales representative and will be contacted to review transition plans.

**Want to know more?** Contact your UP Intermodal or Streamline Sales representative for additional details, or track us down day or night at [shipstreamline.com](http://shipstreamline.com).
