EXHIBIT INDEX

Exhibit Description

Press Release dated October 23, 2003 announcing Union Pacific Corporation's financial results for the third quarter of 2003.

RECORD REVENUE FOR UNION PACIFIC

Strong Performance in Agricultural, Industrial Products and Energy

OMAHA, Neb., October 23, 2003 – Union Pacific Corporation (NYSE:UNP) today reported net income for the third quarter of \$317 million or \$1.21 per diluted share. This compares to \$437 million or \$1.63 per diluted share in the third quarter of 2002, which included income gains from a major real estate sale, as well as a tax settlement. These two items added \$0.44 per diluted share to the 2002 quarterly earnings.

"As in the first half of the year, fuel prices continued to be a drain on earnings, adding nearly \$50 million to third quarter expenses," said Dick Davidson, chairman and chief executive officer. "On the plus side, however, we achieved record revenue of nearly \$3 billion – a four percent increase over last year."

Third Quarter Highlights

For the third quarter, Union Pacific Corporation reported operating income from continuing operations of \$592 million compared to \$619 million for the same period in 2002.

- Revenue was a record \$3.0 billion up 4 percent versus 2002
- Operating Margin of 20 percent down 1.7 points versus 2002, primarily as a result of higher energy costs

Third Quarter Railroad Business Revenue Summary versus 2002

Overall, commodity revenue was up 4 percent with three groups, Agricultural, Industrial Products and Energy all achieving best ever quarterly revenue as follows:

- Agricultural up 10 percent
- Industrial Products up 7 percent
- Energy up 6 percent
- Chemicals and Intermodal were flat
- Automotive down 3 percent

"Even in the face of some operational challenges, we leveraged Union Pacific's diverse businesses into a solid revenue performance," said Davidson. "This competitive advantage enabled us to see strong demand in three of our six business groups and more than offset weaknesses in finished vehicle and chemical demand."

Overnite's Third Quarter Results

Due to the pending IPO of Overnite Corporation, the company's results are reported as Discontinued Operations.

Overnite reported a 13 percent increase in third quarter operating income of \$28.8 million compared to \$25.6 million in 2002. Operating revenues increased 8 percent to \$384.2 million compared to \$354.7 million last year. Overnite's 2003 operating ratio improved 0.3 percentage points to 92.5 percent from 92.8 percent in 2002.

Year-to-Date Summary

For the first nine months of 2003, Union Pacific Corporation reported operating income from continuing operations of \$1.54 billion compared with \$1.69 billion in 2002, down 9 percent. Net income for the nine months ended September 30, 2003, rose 7 percent to \$1.03 billion versus \$963 million for the same period a year ago. The \$1.03 billion includes \$274 million from the cumulative effect of an accounting change recorded in the first quarter of 2003.

Outlook

"We're fairly optimistic that we'll see continued broad-based growth in our business and improving economic conditions as we round out 2003," Davidson said. "While we have been experiencing some operational difficulties in the second half of the year, we expect operations to improve throughout the fourth quarter, enabling Union Pacific to enter 2004 with a balanced, fluid system that is positioned for new growth and new business."

Union Pacific Corporation is one of America's leading transportation companies. Its principal operating company, Union Pacific Railroad, is the largest railroad in North America, covering 23 states across the western two-thirds of the United States. A strong focus on quality and a strategically advantageous route structure enable the company to serve customers in critical and fast growing markets. It is a leading carrier of low-sulfur coal used in electrical power generation and has broad coverage of the large chemical-producing areas along the Gulf Coast. With competitive long-haul routes between all major West Coast ports and eastern gateways, and as the only railroad to serve all six gateways to Mexico, Union Pacific has the premier rail franchise in North America. The Corporation's trucking operations include Overnite, Inc. which owns its less-than-truckload carriers Overnite Transportation and Motor Cargo.

This press release and related materials may contain statements about the Corporation's future that are not statements of historical fact. These statements are, or will be, forward-looking statements as defined by the Securities Act of 1933 and the Securities Exchange Act of 1934. Forward-looking statements include, without limitation, statements regarding: expectations as to operational improvements; expectations as to cost savings, revenue growth and earnings; the time by which certain objectives will be achieved; estimates of costs relating to environmental remediation and restoration; proposed new products and services; expectations that claims, lawsuits, environmental costs, commitments, contingent liabilities, labor negotiations or agreements, or other matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity; and statements concerning projections, predictions, expectations, estimates or forecasts as to the Corporation's and its subsidiaries' business, financial and operational results, and future economic performance, statements of management's goals and objectives and other similar expressions concerning matters that are not historical facts.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times that, or by which, such performance or results will be achieved. Forward-looking information is based on information available at the time and/or management's good faith belief with respect to future events, and is subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements.

Important factors that could affect the Corporation's and its subsidiaries' future results and could cause those results or other outcomes to differ materially from those expressed or implied in the forward-looking statements include, but are not limited to: whether the Corporation and its subsidiaries are fully successful in implementing their financial and operational initiatives; industry competition, conditions, performance and consolidation; legislative and regulatory developments, including possible enactment of new tax rates and possible enactment of initiatives to re-regulate the rail industry; natural events such as severe weather, fire, floods and earthquakes; the effects of adverse general economic conditions, both within the United States and globally; any adverse economic or operational repercussions from terrorist activities and any governmental response thereto; war or risk of war; changes in fuel prices; changes in labor costs; labor stoppages; and the outcome of claims and litigation, including those related to environmental contamination, personal injuries, and occupational illnesses arising from hearing loss, repetitive motion and exposure to asbestos and diesel fumes.

Forward-looking statements speak only as of the date the statements were made. The Corporation assumes no obligation to update forward-looking information to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. If the Corporation does update one or more forward-looking statements, no inference should be drawn that the Corporation will make additional updates with respect thereto or with respect to other forward-looking statements.
