

Portal Enhancements

November 2025

- View shipments across **multiple facilities or ramp locations** in a single, streamlined dashboard.
 - Save time and reduce complexity by seeing all your shipment activity in one place—no need to toggle between locations.
- Gain visibility into **processed and unprocessed waybills** for better tracking and planning.
 - You can now proactively manage your logistics by identifying which shipments are not billed and need their attention. Thus, helping to prevent delays and improve operational efficiency.

**One
Or
All**
