

UNIT TRAIN FORECASTING

—

Unit Train is now integrated within Shipment Management

To access Unit Train, select Shipment Management on the Ship dropdown menu.

Using the Navigation Bar

Select Unit Train from the Navigation Bar on the left-hand side.

The screenshot displays the MyUPRR dashboard interface. On the left-hand side, there is a vertical navigation bar with several menu items: TRACK SHIPMENTS, DASHBOARD, SUBSCRIPTIONS, INTERMODAL, CARLOAD, UNIT TRAIN, and EN ROUTE TO INTERCHANGE. The 'UNIT TRAIN' item is highlighted with a yellow rectangular box, and a black mouse cursor is pointing at it. A yellow line connects the 'UNIT TRAIN' icon in the navigation bar to the highlighted box. The main content area of the dashboard shows a 'Union Pacific' section for 'Fresno, CA' with various metrics and charts, including '0 At Industry', '1 In Serving Yard', '2 Inbound', and '10 Outbound'. A blue notification banner at the top of the main content area reads: 'Take a tour to see the features of the new Short Line Interchange Dashboard. We appreciate your candid feedback on the new application, so that we can optimize your online experience with Union Pacific.'

- You can navigate to Track Shipments, Shipment Management Dashboard, Subscriptions and other customer views (intermodal, manifest, short line).
- By selecting the Unit Train icon, this will expand into available pages such as; inbound, outbound, shuttles (if applicable), train lineup, and forecasting.

The screenshot displays the MyUP Train View interface. The left sidebar contains navigation options: TRACK SHIPMENTS, DASHBOARD, SUBSCRIPTIONS, INTERMODAL, CARLOAD, UNIT TRAIN, and EN ROUTE TO INTERCHANGE. The top navigation bar includes a search bar, a 'Unit Train Locations' dropdown menu set to 'Union Pacific Grain', and a 'Train Views' dropdown menu set to 'Inbound'. A yellow box highlights the 'UNIT TRAIN' icon in the top navigation bar, and another yellow box highlights the 'UNIT TRAIN' icon in the left sidebar. A yellow arrow points from the sidebar icon to the top navigation icon. The main content area shows a table of train data with columns for Train ID, Cars (Alerts), Last Accomplished, Next Scheduled, Last Scheduled, Actual Time of Placement Date, and Release (Est/Act).

Creating a Forecast

- Any field with an asterisk (*) is a required field.
- You can forecast by Origin or Destination.
- We now require a minimum number of cars per forecast based on destination. That number will display under “Total Cars” once an origin/destination is provided.
