

## FUEL SURCHARGE MATRIX

### Union Pacific Railroad Supply Truckload Fuel Surcharge

A fuel surcharge may be assessed and will apply on the line haul charges only. It is to be shown as a separate factor on the freight bill.

The surcharge will be calculated based on the Department of Energy Fuel Index as reported on Monday of each week and will become effective the next day based off the LMS shipment create date. This index can be obtained by calling the National Industrial Transportation League (NITL) at 202-586-6966 after 2:00 pm each Monday or by accessing the web site at [www.eia.doe.gov](http://www.eia.doe.gov). If Monday is a recognized federal holiday, the index will be determined on Tuesday and the effective day will be Wednesday.

The fuel peg rate is fixed at \$1.20 per gallon. There will be no fuel surcharge when the price of fuel is below the peg. When fuel prices exceed this range, cents per mile fuel surcharges may then be added to freight invoices. The fuel surcharge varies by truck type

#### Van Fuel Surcharge

The fuel surcharge rate will be \$0.76 plus an additional \$0.01 per mile for each \$0.07 increment at or above \$6.52 per gallon.
