<b>HEADLINE:</b>	110/car Grain Shuttle Program Announcement

<b>Customer Notification Option:</b>	All Text with Link
--------------------------------------	--------------------

#### **Body:**

1. Effective October 1, 2012, UP will differentiate the 100 vs. 110 car train rates by \$80 for heavy cars. We will add 2 columns to the current UP 4051 & 4052 tariffs for 110 heavy and light cars starting January 1, 2012. Initially the published rates will contain the current 100 car rates for heavy and light cars. The per shipment parameter for 100 car train will change from 92+ to 92-104 cars per train and the per shipment parameter for 110 car train will be 105+ cars per train.
2. September 30, 2014, will be the effective end date for paying \$125 load/unload for 110 car shuttle trains. At that time the load and unload incentive for 110 car shuttles will become \$100/car for the qualifying time of 15hrs.
