

UPDS Border Solutions

Overview

Union Pacific Distribution Services (UPDS) offers a competitive, reliable Border Solutions service that can improve your bottom line. Border Solutions eliminates delays - and subsequent charges - at the U.S./Mexico border, allowing you to improve supply chain fluidity and your customer's overall satisfaction.

Key Benefits

- **Minimizes Risk** caused by transportation surprises and missing information
- **Lowens Cost** by enabling you to better manage your shipments, border-related costs and improved asset utilization
- **Improves Customer Service** by providing better decision-making information via enhanced logistical and tactical support
