

New functionality has been added to allow you to process the missing ingate for your MatchUP loads to complete the move. Please refer to this reference guide for the steps on how to complete this process.

- 1. Select the usage in question that must be in Destination Street status.
- 2. Click the Other Actions dropdown and select "Ingate Empty"

race	e	Vie	w Available	Cancel Reservation	1	Interchange	Cancel	Interchange	Rail E	Bill 🕶	Other Actions 🕶
					Status						REZ Tracking # Verification
T	Pre.	<b>T</b>	🗘 Asset 🝸	▲ REZ Tracking # 🕇			T	🕈 🗘 Status Date/Tir		🕆 Statu	Create A Rail Bill
Г	коси		415403	HM40G02406	Dest	ination Street		03/01/2021 23	3:36 PST	14 hour	Ingate Empty

- 3. You will then be provided with a popup window to select the Ingate Date and location
  - a. While the location should auto populate you will need to select the Ingate Date
  - b. Please note the date and time of the ingate **MUST** be after the time of outate
- 4. Then click the Add button to create the ingate

Add Ingate Event	×
	* indicates required field
Ingate Date *	03/02/2021 00:30
Ingate Location *	Oakland DRP Return
	Add Cancel

- 5. The status of the usage will now show complete
- Things to note:
  - The usage must be in Destination Street Status
  - You can back date the ingate, but it must be after the time of the outgate
  - You can determine the time of outgate for a move in Destination Street status by the Status Date/Time column
