

Mega Sites Cleared for Rail Development

pre·ap·prove [prē'ə-proov']:

acting in anticipation of future opportunities, needs or changes

Large industrial RFP's often seek rail accessible sites with some site preparation complete.

Develop a master plan for your mega site, complete with conceptual rail designs.

Pre-approved rail designs add to your site preparation diligence and will help you effectively promote your site for the next big opportunity.

Contact Union Pacific to discuss potential mega site locations.

Contact us today to learn more about the tools we have to support your business retention and expansion objectives.
